

Red Thread Labs

Flagship Offer Deck

***Trust Isn't Earned at the Checkout Page,
It's Built Along the Scroll.***

The Problem

You're running ads, maybe even getting decent clicks.

But conversions? They stall. Something's off.

It's not your product. It's not your landing page.

It's the missing trust layer in your content journey — the piece between "hmm" and "hell yes."

What We Do

We help high-growth brands bridge the conversion trust gap with scroll-stopping content and structured buyer journeys.

Our core focus:

- Premium visual storytelling
- Strategic content systems that move your audience from "hmm" to "hell yes."

This isn't about going viral. It's about:

- Higher click-through rates
- More qualified buyers
- Shorter buying cycles
- Stronger retention and post-purchase loyalty

Our Core Method

The Red Thread Framework

Phase 1

The Buyer Journey Audit: Where do people drop off — and why?

- Visual + copy audit of your entire funnel
- Mapping out your TOFU/MOFU/BOFU journey
- Identifying friction, trust gaps, dead zones, missing proof, and unclear CTAs
- Competitive teardown: What your category leaders do differently
- Output: A clarity map of “what’s missing” and “what’s wasting money”

Phase 2

Content Engine Deployment: Plugging the gaps with conversion assets that punch above their weight

Ad Creative Development

- Scripted, designed, and delivered Top/Mid Funnel content
- Scroll-stopping formats optimized for paid + organic

Trust Layer Content

- Reworked testimonials, founder videos, and behind-the-scenes assets
- UGC hybrid clips with intentional CTA scripting

Website / Landing Content

- On-site visuals & trust triggers
- Fixing friction-heavy sections that silently bleed conversions

Phase 3

Delivery & Performance Layer

- Visuals optimised for platforms (Meta, TikTok, YouTube, DTC websites)
- Website Optimisations to ensure smoother buyer journey + 15-days of ASYNC support

How We Measure Success

- Cost Per Acquisition (CPA) before/after content rollout
- CTR / Watch Time across platforms
- Landing page conversion rates pre/post deployment
- Brand sentiment, engagement, and retention metrics

Past Brand Experience

We've brought content to life for:

- BondiBoost
- BMW
- ASUS

And helped dozens of brands punch above their visual weight. Read the full case study [here](#).
